

Industrialization Engineer (m/f/div) - Test Development

Descrição da função

This is a full-time, on-site position based in Sibiu. Remote work is not available for this role.

As an Industrialization Engineer responsible for Test Development, you will design, develop and implement equipment for electronics manufacturing, ensuring process capability and quality performance from project launch through serial production stabilization.

Check out your future responsibilities below:

- Participating in industrialization meetings, ordering equipment, creating documentation, coordinating installations, monitoring performance, and handing over equipment and processes to the production team.
- Ensuring process capability and achievement of quality targets during product launch and ramp-up phases.
- Maintaining and developing technical know-how, while ensuring compliance with relevant procedures and standards.
- Providing support during crisis situations and preparing quotations for new projects.
- Supporting the introduction of new technologies, Design for Manufacturing (DFM) activities, and technical problem-solving;
- Supporting new product launches, design and process reviews, and strategic projects.
- Maintaining a network of technology partners and ensuring information transparency.
- Creating roadmaps for new technologies, monitoring market trends, and evaluating new technologies and products.
- Preparing for and participating in audits.

Requisitos

Qualifications:

- Bachelor's degree in Electrical Engineering, Electronics, Automation, or Mechatronics.
- Minimum 3 years of experience in developing production test systems.

Quem somos

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent

company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
