

Project Team Leader

Your tasks

The Project Team Leader is responsible for leading a cross-functional project team across engineering, manufacturing, quality, sales, finance, and purchasing. This role manages project execution to support customer requirements, internal milestones, budget targets, quality expectations, profitability objectives, and launch readiness.

Key Responsibilities

- Lead cross-functional project teams to deliver customer and internal project milestones.
- Manage customer and project requirements, timing, priorities, risks, and deliverables throughout the project lifecycle.
- Coordinate project activities across engineering, manufacturing, quality, sales, finance, purchasing, suppliers, and other stakeholders.
- Monitor project costs, budget adherence, capital requirements, tooling needs, and profitability targets.
- Support development quality processes and drive completion of required quality gates.
- Coordinate technical work assignments for matrixed research and development project team members.
- Partner with manufacturing teams to support industrialization plans, quality controls, safe launch readiness, and customer milestone achievement.
- Manage multiple projects across vehicle platforms while balancing priorities, timelines, resources, and stakeholder expectations.
- Coordinate cross-regional project topics and stakeholders to support customer center strategy and project objectives.
- Work with directed and tiered suppliers to support co-development activities and product application across supplier locations.
- Lead resolution of project-related quality issues and support warranty reduction activities within the assigned product scope.
- Prepare and present project status updates to customers and senior management as required.
- Support project acquisition activities and launch support planning as needed.

Your profile

Minimum Qualifications

- Bachelor's degree in Engineering or a related technical field, or an equivalent combination of education and relevant experience.
- 5 or more years of relevant experience in automotive, electronics, manufacturing, mobility, or a related technical environment.
- Experience supporting automotive electronics, embedded systems, vehicle systems, or related product development environments.
- Experience using Microsoft Project or comparable project planning and scheduling tools.

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
