

Chief Manager, Advanced Purchasing

Vos activités

****Key Responsibilities:****

- Lead the sourcing team through the automotive sourcing process from kick-off to supplier nomination, ensuring best cost and quality outcomes while meeting all project milestones and PLC gate requirements
- Manage commercial responsibility for material costs, including bill of material (BOM) ; actively participate in design-to-cost and cost reduction programs to achieve target costs during acquisition and post-SOP phases
- Safeguard supplier risk exposure by monitoring well-known risk clusters (geo-hazard, geo-political, financial, technical, supply) and maintain comprehensive sourcing documentation through official nomination
- Control supplier-related milestones during product development, ensuring on-time component sourcing, early supplier involvement (ESI) when requested, and smooth handover to plant purchasing at PLC gate 80
- Drive change management processes for components and track component development and validation with SQM until successful SOP
- Translate BA product and technology roadmap into component and technology roadmap; conduct strategy reviews with main categories to identify action needs, white spots, and supplier development activities
- Support new supplier scouting, introduction and development, including market analysis, supplier process development, gap analysis, and VDA 6.3 process audits; maintain supplier base in alignment with BA strategy and technology roadmap
- Support material and supplier strategy development for assigned categories (Display, Cover Glass and Backlight Unit) with focus on India, including market analysis, strategy definition, implementation, and acting as local representative for commercial escalations
- Support SQM roadmap alignment and conduct initial on-site quality assessments for new potential suppliers

AUMOVIO India Private Limited

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
