

IE Assembly Project Engineer

Jūsų užduotys

- The Assembly Process Engineer is primarily responsible for designing, optimizing, and sustaining manufacturing processes within Assembly Operations. The role focuses on driving operational excellence through process improvement, cycle time reduction, line balancing, capacity optimization, waste elimination, and productivity enhancement to achieve business objectives, quality targets, and customer satisfaction.
- As the PFMEA Moderator and technical leader for assigned production lines, the engineer facilitates cross-functional risk assessment activities, ensuring effective identification, evaluation, and mitigation of process risks. The position is responsible for maintaining alignment between PFMEA, Process Flow Diagrams, Control Plans, work instructions, and production standards to ensure robust and controlled manufacturing processes.

Reikalavimai

- Bachelor's Degree in Industrial Engineering, Mechanical Engineering, Mechatronics Engineering, Manufacturing Engineering, or related technical field.
- Advanced English
- Experience:
 - Minimum 3 years in Manufacturing Engineering, Industrial Engineering, Quality Engineering, or Automotive Operations.
 - Facilitating or participating in PFMEA activities
- Knowledge:
 - AIAG-VDA PFMEA methodology (Advanced)
 - APQP and PPAP processes
 - Process Flow Diagrams and Control Plans
 - Understanding of IATF requirements
 - Manufacturing Process Control and Risk Management
 - Statistical methods and quality tools
 - PFMEA software tools (APIS IQ-FMEA, PLATO, or equivalent)
 - Microsoft Excel (Advanced), Microsoft PowerPoint
 - SAP (Preferred)

Apie mus

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
