

Forecasting Analyst

Your tasks

Forecasting Analyst Position is responsible for sales forecasting which includes volume/demand planning by part number for select business areas and manufacturing plants. The forecast planning role consists of monitoring regional production volumes, customer releases, customer plant schedules, and gathering intelligence on part number changes from plants supporting monthly volume review meetings to develop, review, and gain approval of the forecast by all stakeholders (plant, business areas, logistics, and sales). This position also participates in the ten-year strategic planning process including the alignment of both short and long-term forecasts.

About us

Since its spin-off in September 2025, AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide
