

Head of Analog Design (m/f/d) - Executive

Feladatok

We are seeking an executive leader (m/f/d) with deep expertise in analog and mixed-signal integrated circuit design to lead a strategically important global organization. In this role, you will drive innovation, technology leadership, and organizational excellence while shaping next-generation semiconductor solutions for demanding automotive applications.

As Head of Analog Design (m/f/d), you will lead a global organization of highly skilled engineers across multiple locations worldwide. You will be responsible for defining and executing the organization's analog design strategy, ensuring world-class designs, engineering excellence and enabling sustainable business growth through innovative semiconductor solutions.

Key responsibilities include:

- Defining and executing the long-term Analog Design strategy aligned with business objectives
- Leading, mentoring, and developing leaders, and engineering teams across global sites
- Overseeing the complete analog IC development lifecycle from concept through production readiness
- Driving technology innovation, development excellence, and continuous improvement initiatives
- Establishing and maintaining strategic partnerships with design houses, universities, foundries, OSATs, and ecosystem partners
- Managing budgets, resource allocation, capability development, and organizational growth
- Influencing product portfolio decisions, technology roadmaps, and business case development
- Representing the company in industry forums, conferences, and strategic technology networks

Profilja

- Academic Degree in Electrical Engineering, Microelectronics, Physics, or comparable qualification
- Long term experience in semiconductor and IC development
- Experience managing substantial budgets, resources, and organizational growth
- Proven track record of bringing complex semiconductor products to mass production and building high-performing engineering organizations
- Significant leadership experience within international R&D organizations
- Demonstrated success leading diverse, geographically distributed teams

Ready to take your career to the next level? The future of mobility isn't just anyone's job. Make it yours! **Join AUMOVIO. Own What's Next.**

Rólunk

In September 2025, AUMOVIO emerged as a spin-off from Continental's former Automotive group sector and has since established itself as an independent technology company. The company offers a broad portfolio for safe, exciting, connected and autonomous mobility, including sensor solutions, displays, brake and comfort systems as well as extensive expertise in software, architecture platforms and advanced driver assistance systems for software-defined vehicles. In fiscal year 2025, AUMOVIO generated sales of € 18.5 billion. Headquartered in Frankfurt am Main, AUMOVIO has around 82,000 employees at more than 80 locations worldwide.
