This internship provides an excellent opportunity to gain hands-on experience in a fast-paced manufacturing environment while developing a broad understanding of Maintenance within Operations.

This internship is a full-time, on-site opportunity designed to provide meaningful learning experiences and professional development. **This internship position is scheduled to last 12 weeks in length from May 17, 2027-August 6, 2027.**

RESPONSIBILITIES

- Computer Maintenance Management System (CMMS) research including assessing downtime, stronger maintenance processes, reduced costs, better decision-making, more efficient workflows, automated compliance monitoring and increased mobility.
- Assist with analysis for spare parts inventory control requirements.
- Total Productive Maintenance (TPM) working with AI to develop tools for predictive maintenance and help develop TPM program.
- Work with real time data, sensors, and analytics to predict when equipment will fail.
- Support with development of new business launch Advanced Driver Control Unit (ADCU). standardized work instructions to include Standard Operating Sheet (SOS).
- Support with other operational duties and projects as assigned.

OUTCOMES

The Maintenance Intern can expect to gain practical experience in a broad range of Operations focused functions including:

- Documentation management of Standard Work Instructions (SWIs.)
- Gain knowledge of predictive maintenance and equipment processes.
- Experience working cross-functionally with teams including (Operations, Engineering, Maintenance, Quality, Safety, etc.)
- Practice and improve problem solving skills.

WHY YOU SHOULD APPLY

- Gain hands-on experience across multiple disciplines Operations, Engineering, Maintenance, and Quality.
- Work alongside experienced Engineering professionals in a global manufacturing organization.
- Contribute to meaningful business and Engineering initiatives.
- Build your professional network and gain valuable career experience.
- Experience working for a global industry leader.
- Holiday pay/Paid Time Off.

Acerca de nosotros

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87,000 employees in more than 100 locations worldwide.
