

SAP BI/BW Senior Consultant

Vaše náplň práce

- Analyze the current business processes and scenarios, and recommend/develop solution to meet business needs.
- Handle Batch Cycle operational support (data loads monitoring and issue resolution, incident and problem resolution, downtime and performance management).
- Able to introduce, implement, train and support new technologies that would address changing business needs (e.g. BW on HANA, Front-end tools and Datalake solutions).
- Flexibility to work on implementation/upgrade/support activities based on the requirement.
- Manage basic security roles to properly address the needs of various business teams and audit requirements.
- Facilitate / coordinate workshops with business key users to collect business requirements, processes and objectives. Provide ad-hoc training and advance consulting/IT services.
- Work with the development team in providing solutions to users, carry out unit testing and facilitate user testing, document functional design, test cases and results according to business requirements.

O nás

Since its spin-off in September 2025 AUMOVIO continues the business of

the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
