

MES Support Specialist

Your tasks

Key Responsibilities:

- Provide daily first-level operational support for Manufacturing Execution Systems (MES) applications, adhering to established escalation procedures.
- Perform system setup, configuration, and testing for project implementations, with a focus on traceability requirements/concepts.
- Support integration of MES with manufacturing equipment (e.g., ICT, AOI, final test, laser marking) and devices (e.g., barcode scanners, label printers), including PLC interfacing.
- Support deployment of MES updates, patches, or system enhancements.
- Train end-users on MES functionalities, workflows, and system updates.
- Conduct basic troubleshooting and root cause analysis for MES-related issues (software, hardware interfaces, or connectivity).
- Observe production data in real-time and assist in root-cause analysis when problems occur.
- Monitor and ensure the daily availability and performance of MES applications and related systems.
- Collaborate effectively with production, engineering, and quality teams to support MES traceability and service requirements.
- Gather and provide comprehensive information to support traceability requirements prior to project development and/or audit.

Your profile

Qualifications

- Diploma or higher in Computer Science, Engineering, or a related technical field.
- Minimum of 2-3 years of experience in a MES-related environment in manufacturing industry.
- Familiarity with production processes (SMT, Backend, Final Assembly) and logistics workflows.
- Proficient in Microsoft Windows environment (configuration, troubleshooting, and event monitoring).
- Knowledge of IT infrastructure, including PC workstations and networking.
- Basic understanding of software applications and testing methodologies.
- Knowledge in programming languages (C#) and basic SQL scripting skills (Oracle/MS SQL).
- Willingness to work afternoon shift (3:00 PM – 11:00 PM). With flexibility changes based on business needs and support off-hour operations when required.
- Ability to collaborate with cross-functional teams.

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
