

IT Cloud Solution Architect for Artifactory (TM)

Náplň práce

As an IT Cloud Solution Architect focused on Artifactory you are responsible for the following topics:

- Develop, roll out and maintain Cloud solutions to allow our Engineering application "Jfrog Artifactory" to be operated in the most effective and performant way
- Develop, roll out and maintain Cloud architectures following the A IT EA and Conti standards for Service and Application Architecture
- Validate latest available technologies, components and tools on the market to operate our current and future Engineering Applications
- Design of proof of concepts using components from AWS, Azure and other Cloud suppliers
- Technical leadership of a development and expert team using SAFe and e.g. SCRUM methods
- Coordinate the IT and Business Requests with the relevant Stakeholders via SAFe@EA and DevOps processes
- Support in rollout and version upgrades for our Agile/CI Applications hosted in AWS Conti VPCs
- Understand and follow the Conti R&D and IT processes
- Work together with a worldwide team from different time zones and from different cultures.

Profil kandidáta

- Advanced knowledge on a Cloud computing vendor like AWS or Azure
- Advanced knowledge in the application Jfrog Artifactory
- Deep understanding of cloud technology and services
- Basic knowledge of similar applications like Artifactory
- Execution & contribution to Continental Cloud Governance Framework
- Basic understanding of Cloud based service models and deployment models
- Knowledge on ITSM approach in A IT EA, Continental or basic knowledge on ITIL framework
- Knowledge in SAFe and SCRUM, especially the used SAFe@EA approach for A IT EA
- Ability to explain cloud technology and services and service models

O nás

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~93,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
