

Test Engineer Intern

Your tasks

- Develop, debug, and release test equipment for products.
- Follow procedures on equipment procurement and implementation of engineering changes; initiate necessary improvements to support productivity, quality, and safety.
- Work closely with R&D/HW/SW Engineering to ensure test implementations are fit for series manufacturing.
- Ensure a detailed and realistic plan is provided according to the project schedule and on-time delivery of committed deliverables.
- Report the project status on timing, quality, and risk to the Team Leader.
- Ensure equipment and procedure standardization according to Tech.Net and quality standards.
- Ensure the test plan matches the Product Test Specification and other related requirements (TCA etc.)
- Support in customer complaints handling and analysis as needed.
- Provide troubleshooting service to manufacturing products and test equipment if support is needed.

Your profile

- Ongoing or completed bachelor's degree in engineering (industrial, mechanical, electrical, electronics, mechatronics) or other related field or equivalent education required.
- Previous working experience in manufacturing, especially electronics or semiconductors is a big advantage but not required.
- Basic knowledge of programming, especially C/C++.
- Practical knowledge of electronics, i.e. can read electrical schematics, interpret basic electronic circuits, etc.
- Microsoft Office skills.
- Good knowledge of English language.

Our offer

- Internal training sessions with a dedicated mentor.
- Work in a professional, dynamic, and multicultural team.
- Opportunities for professional growth within an international company and experience with world-class technologies.
- Private health insurance.
- Accident insurance that also covers non-working hours.
- Life insurance.
- A modern and clean working environment.
- Additional paid vacation days during the Christmas and New Year period.
- Extra paid vacation days based on length of service.
- Free access to a fully equipped gym located on the company premises.

About us

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~93,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
