

Communications Project Management Intern

Descrição da função

At AUMOVIO, Autonomous Mobility Hungary, and its Artificial Intelligence Development and Application Development centres, we are creating the **next generation of software solutions** to power safety-critical systems and enable autonomous driving features in new vehicles around the globe. We are working towards Vision Zero, a goal to eliminate thousands of fatal accidents happening every day on the world's roads. Our aim is to develop cutting edge techniques that sense and understand the vehicle environment.

Your Role

We are looking for a **Communications Project Management Intern** to join our team, supporting the Project Manager responsible for **communication, public relations, facility management and operative projects** within the Central Team. This internship offers a diverse experience across internal communications, event coordination, office and facility management, and visual content creation. You'll also have the opportunity to contribute to international projects within AUMOVIO's Business Area Autonomous Mobility.

Whether you already have some work experience or are just getting started, this position is a great opportunity to gain hands-on experience in a dynamic, international environment.

Your Tasks

- Supporting the **organization of internal events** - from concept development until execution (e.g. internal celebrations, retention events, team buildings, workshops)
- Supporting the firm's attendance at **external events** - including conferences, job fairs, student visits
- Managing daily operational and **facility management**-related projects and tasks
- Managing communication and service requests with external partners, agencies and event organizers
- Preparing **presentation materials and visual materials** using online editing tools
- Supporting **content creation** for internal and external channels (the internal weekly newsletter, stories for our Intranet, social media posts)
- Handling **administrative tasks** related to communication and facility management
- Supporting ad-hoc tasks as needed.

Communications

Pessoa jurídica
**Continental Autonomous
Mobility Hungary Kft.**

- **Ongoing studies at a Hungarian university** for at least 6 months in the area of: Communications, Public Relations, Marketing, or a related field.
- Required languages: advanced **English** and native **Hungarian**
- Strong **communication and organizational skills**
- Experience in presentation preparation and visual content creation
- Keen interest in **event management and communications**
- Positive and proactive attitude
- Able to work **24 hours/week** - between 9 AM and 5 PM, with occasional flexibility for events outside regular hours

Not required, but nice to have

- Experience in a corporate or creative agency setting, especially in event or office management
- Awareness of the current industry trends, especially when it comes to social media
- Essential skills for photo editing and graphic design - e.g., using online editing tools
- Ability to work and collaborate in an agile team environment.

O que oferecemos

What we offer

- Participation in exciting, highly innovative projects with a leading automotive supplier.
- An inspiring local team and collaboration in our international development network.
- Dynamic, and friendly corporate culture that fosters team work as well as individual ownership of tasks.
- Excellent learning opportunities in a fast-growing business unit.
- New and modern office in the heart of Budapest (near Calvin square).
- Possibility for work-from-home arrangements.

Ready to take your career to the next level? The future of mobility isn't just anyone's job. Make it yours! **Join AUMOVIO. Own What's Next.**

Quem somos

Continental's Automotive group sector was listed as independent company "**AUMOVIO**" in September 2025. With ~87,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
