

Mandatory Internship - Project Management in the Field of Autonomous Mobility - REF3537K

Your tasks

Your Mission in Our International Team:

- You independently prepare international customer presentations and internal management presentations in collaboration with the development and sales teams. Depending on your interest, you may also present them yourself.
- You monitor ongoing tasks during the acquisition phase to ensure everything runs smoothly and new business is secured.
- You are the analyst (m/f/d) who independently develops and implements project planning and analyses during acquisition and at the start of new projects.
- Planning and execution of vehicle demonstrations are in your hands.
- You support the acquisition team, for example by processing technical requirements.

Your profile

- You are studying Industrial Engineering, Project Management, Management (Business Administration, Economics, or similar), Technology Management, Business Informatics, Engineering (e.g., Automotive Engineering), or a comparable degree program.
- Ideally, you have basic knowledge of project management and show a strong interest in innovative ideas.
- You quickly grasp information, think analytically, and bring a good dose of creativity.
- You are characterized by teamwork, strong communication skills, and independence.
- Confident use of MS Office (PowerPoint, Excel, Copilot, etc.) is a given for you.
- Very good German and English skills, both written and spoken, are important.

Please remember to upload your current **certificate of enrollment**, your **latest transcript of records**, and an **excerpt from the current study regulations regarding the completion of a mandatory internship**, as these are essential for processing your application. If applicable, please also submit your **valid residence permit along with the supplementary sheet**.
