

Analysis&Rework Intern

Your tasks

- Identify and analyze the primary causes of failures in daily production of electronics, focusing on assembly and test processes.
- Perform root cause analysis for parts failing during assembly and testing, ensuring accurate diagnosis and solution identification.
- Make informed proposals for scrap decisions based on a technical assessment of process and product characteristics, as outlined in technical documentation.
- Analyze and repair data recording issues in the traceability system and ensure accurate data reporting.
- Perform retesting, reworking, or touch-up of parts whenever required to meet quality standards.
- Ensure compliance with safety criteria within the area of responsibility and actively monitor adherence to safety guidelines.
- Develop, implement, and promote measures to prevent safety violations within the area of responsibility.

Your profile

- Bachelor's degree or currently studying for bachelor's degree in engineering or management field.
- Fluent in English (both written and spoken).
- Able to join an internship for 6 months.

Our offer

- Internal training sessions with a mentor.
- Work in a professional, dynamic, and multicultural team.
- Private health insurance coverage for you.
- Accident insurance that also covers non-working hours.
- Life insurance.
- A modern and clean working environment.
- Additional paid vacation days during the Christmas and New Year period.
- Extra paid vacation days based on length of service.
- Free access to a fully equipped gym located on the company premises.
- Public transport coverage from Kaunas to AUMOVIO.
- Employee discounts on meals at the company's modern restaurant.
- Various discounts offered by the company.
- Flexible working hours.
- Mobile work option or work from office operated to the highest level of comfort and sustainability.
- Year-end bonus.
- Salary 1074,38 Eur (before withholding taxes).

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
