

# LLM Innovation Intern

## 工作职责

We are looking for an intern to work on exciting Agentic AI development projects. The goal is to create intelligent agent tools that will transform how our central teams work – from purchasing to SW quality and beyond. Streamlining processes, automation of routine tasks, providing valuable insights will help our teams operate more efficiently with less manual work. **The ideal candidate is eager to experiment with AI and has the intention of saving time for topics with higher added value.**

## Your Tasks

- Experiment with LLM-based tools (e.g., GPT, Copilot, Azure AI Foundry) to solve concrete business challenges
- Support internal business workflows by identifying automation opportunities
- Analyze business use cases and propose AI-driven solutions for the Central Functions
- Explore different approaches (e.g., prompt engineering, API integrations) to understand capabilities and limitations
- Build simple prototypes or scripts to demonstrate feasibility
- Present your ideas, findings, and learnings

## 职位要求

- Ongoing studies at a Hungarian university (Bsc or Msc) on a relevant field with at least two semesters left (e.g. Computer Science, Business, Economics)
- Good command of English language
- Able to work min. 24 hours/week
- Interest in generative AI and LLMs (e.g., GPT, CoPilot, Azure)
- Able to work independently
- Clear communication and presentation skills

## 我们可以提供

### Nice to have

- Experience with Python and basic ML concepts
- Familiarity with prompt engineering or LLM APIs
- Projects related to LLMs

Ready to take your career to the next level? The future of mobility isn't just anyone's job. Make it yours! **Join AUMOVIO. Own What's Next.**

## 关于我们

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent
