

Internship - Data Analytics and Data Visualization with Power BI - REF4489I

Your tasks

To support our team at the Frankfurt location, we are looking for an intern (m/f/d) from **January 15th, 2026** for a period of **6 months** who will support us actively and with full commitment. The activity will take place at our Frankfurt location.

Your tasks include:

- Creation and maintenance of Power BI dashboards and reports for visualizing company data.
- Assisting in data analysis and preparation from various sources.
- Collaborating with different departments to understand and implement their data visualization requirements.
- Conducting ad-hoc analyses and providing insights to support decision-making.
- Supporting the optimization and automation of existing reports and dashboards.

Your profile

- Students of a technical or commercial course such as Computer science, business informatics, business administration
- Well versed in MS Office programs and PowerBI
- C++ knowledge desirable
- Basic knowledge of German and fluent English language skills (written and spoken)
- Quick comprehension and analytical thinking
- Accuracy and communication skills

Please remember to upload your current enrollment certificate, your latest transcript, and an excerpt from the current study regulations regarding the completion of a mandatory internship, as these are essential for processing your application!

If necessary, please submit a valid residence permit and your work permit, including the supplementary sheet.

Applications from severely handicapped people are welcome.

Our offer

- An exciting and challenging role in a dynamic team.
- The opportunity to gain practical experience in data analysis and business intelligence.
- Insights into various company departments and the chance to work on real projects.

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
