

Supplier Network Risk Management

Ihre Aufgaben

To lead end-to-end supply chain risk management efforts for the company. By systematically identifying, assessing, mitigating, and monitoring risks, this role aims to enhance supply chain resilience, ensure business continuity, and support sustainable growth.

Key Responsibilities:

1. Risk Identification & Assessment:

- Establish and maintain a comprehensive supply chain risk framework to systematically identify risks, including but not limited to geopolitical issues, market fluctuations, supplier financial health, logistics disruptions, quality compliance, and natural disasters.
- Lead regular risk mapping and scenario analysis to evaluate the likelihood and potential business impact of risks, prioritizing them accordingly.

2. Risk Mitigation & Business Continuity Planning:

- Develop, implement, and maintain effective mitigation strategies and contingency plans for critical risks.
- Promote supplier diversification strategies by developing and managing alternative suppliers and logistics routes to reduce single-source dependencies.
- Ensure business continuity plans for critical materials and services are in place, regularly tested, and updated.

3. Process Optimization & Cross-functional Collaboration:

- Work closely with plant procurement planning, logistics, SQM, and production departments to embed risk management processes into daily operations.
- Lead supply chain traceability initiatives to enhance transparency.
- Regularly report to management on supply chain risk status, mitigation progress, and key performance indicators.

4. Supplier Risk Management:

- Oversee SCM risk assessments for key and strategic suppliers
- Collaborate with suppliers to develop and monitor the execution of their risk mitigation and business continuity plans.

Über uns

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
