

Category Manager OLED

Jūsų užduotys

The Category Manager - OLED Purchasing is a strategic expert role responsible for driving sourcing excellence, cost transparency, and supplier leadership within the OLED ecosystem, with a strong focus on the Korean market.

Based in South Korea, the role combines deep market and technology expertise with hands-on supplier management to secure competitive advantages in acquisitions, negotiations, and long-term partnerships.

Acting as the key interface between global stakeholders and local suppliers, the position plays a critical role in shaping category strategy and strengthening the company's position in the global OLED market.

1. Market Intelligence & Strategy

- Develop and maintain a comprehensive, forward-looking understanding of the OLED market landscape
- Monitor and analyze competitor activities, technological trends, and regional dynamics
- Provide actionable insights on supplier strategies, capabilities, and positioning toward OEMs and Tier 1s
- Identify emerging risks and opportunities related to OLED technologies and supply chains
- Contribute to category strategy development and long-term sourcing roadmaps

2. Cost Analysis & Commercial Excellence

- Build deep transparency into OLED cost structures, including materials, processes, and capital expenditure drivers
- Support acquisition and quotation phases with accurate, data-driven cost models
- Identify and drive cost optimization opportunities across the product lifecycle
- Enable proactive and competitive pricing strategies in collaboration with internal stakeholders
- Strengthen negotiation positions through detailed understanding of supplier pricing models, NREs, and commercial levers

3. Supplier Management & Sourcing

- Lead sourcing activities for OLED components and related technologies
- Develop and manage strategic supplier relationships, particularly within Korea
- Conduct negotiations with key suppliers to achieve optimal commercial and contractual outcomes
- Identify and qualify new suppliers across the OLED ecosystem (including sub-materials and equipment providers)

Required Qualifications:

- Bachelor's or Master's degree in Engineering, Business, Supply Chain, or a related field
- Extensive experience in purchasing, category management, or sourcing within the OLED or display industry
- Strong understanding of OLED technologies, manufacturing processes, and supply chains
- Proven track record in cost analysis, supplier negotiations, and strategic sourcing
- Established network within the Korean OLED industry is highly preferred
- Native or fluent Korean speaker with strong English communication skills
- Must be eligible for overseas travel

Competencies:

- Strategic thinking with strong analytical capabilities
- Deep commercial acumen and negotiation expertise
- Ability to translate complex market data into actionable strategies
- Strong stakeholder management across global and cross-functional teams
- High level of autonomy, initiative, and execution drive
