

Mandatory Internship PL Radar Base Project Management - REF5043E

Tvoji zadaci

Are you ready to support us to shape the future of mobility? Our "Autonomous Mobility" division is a key player in the automotive industry, focusing on partial and fully autonomous driving as well as various driver assistance systems. To make vehicles autonomous, we use state-of-the-art sensors such as radar, cameras, lidar, and ultrasonic technology. These sensor data need to be intelligently aggregated and processed on a powerful central computer within the vehicle. This enables us to offer innovative features such as lane-keeping assistants and parking functions.

We offer you a diverse, responsible, and forward-looking mandatory internship in an international setup. The duration is at least 6 months, and the position is based in Lindau. There is also the option for a flexible combination of voluntary and mandatory internship, with the mandatory part lasting at least 12 weeks.

Your Mission in our international Team:

You will be working with various databases and create a sustainable structure for integrating and updating various sources of information. With your talent to create presentations and structuring KPIs, you contribute to management decisions. You are providing administrative support in day-to-day operations and assist project manager with project planning and analysis.

Tvoj profil

- You are pursuing a degree in Industrial Engineering or a related field.
- Ideally, you have a basic understanding of project management and a keen interest in innovative ideas.
- Proficiency in MS Office is a given for you.
- Fluency in both spoken and written German and English is required.
- You have a strong ability to quickly absorb information, think analytically, and apply creativity effectively
- You demonstrate capabilities, excellent communication skills, and a high level of autonomy.

Before submitting your application, please make sure to include the following documents:

- Your current certificate of enrollment
- Your latest transcript of records
- Confirmation from your university that the internship is a mandatory part of your studies

O nama

At AUMOVIO, we own what we do: Developing and producing hardware, software, and services that shape the future of mobility. But what truly sets us apart are our people. People who thrive in our winning culture, driven by bold ideas. People who take a leap and create meaningful difference—together. Because we believe that the future belongs to those who own it. That's why we foster a culture where you own every step of the way.

Own your career, your growth, your skills, and your impact. Join us and own what's next.
