

Data Architect (m/f/div) - Automotive Finance & Controlling

Vaše náplň práce

We are looking for a highly skilled **Finance & Controlling Enterprise Solution Architect** to join our team. In this pivotal role, you will design, validate, and implement scalable financial and controlling solutions that ensure technical feasibility, seamless system integration, and process automation. Acting as a bridge between business needs and technological capabilities, you will play a key role in shaping robust architectures that align with enterprise standards and strategic goals.

Key Responsibilities

- Design and validate end-to-end financial and controlling solution architectures.
- Translate business and regulatory requirements into scalable system concepts.
- Define process flows and ensure reliable implementation across ERP and adjacent systems.
- Assess technical constraints and define integration patterns for complex environments.
- Guide configuration and development activities to ensure technical feasibility.
- Drive process automation and system optimization for performance and security.
- Ensure compliance with enterprise architecture standards and strategic objectives.
- Collaborate with stakeholders to align solutions with business and regulatory needs.
- Leverage deep technical expertise or strong finance/controlling domain knowledge to deliver fit-for-purpose solutions.

Váš profil

Education & Experience

- Bachelor's or Master's degree in **Finance, Business Administration, Computer Science, Engineering, or related field.**
- **Several years of experience** in one or more of the following areas:
 - **Finance & Controlling processes** (e.g., accounting, cost controlling).
 - **Enterprise or Solution Architecture** for ERP or adjacent systems.
 - **IT development or system integration** in complex enterprise environments.
- Proven ability to **design and implement scalable solutions** that bridge business and technology.

Technical Skills

- Deep understanding of **ERP systems** (SAP FI/CO or similar) and **integration with adjacent applications**;
- Experience with **cloud-based ERP solutions** (SAP S/4HANA, Oracle,

etc.);

- Knowledge of **system integration patterns, data flows, and API-based architectures;**
- Familiarity with **process automation tools and workflow optimization** using **Python & SQL;**
- Strong grasp of **performance tuning, and enterprise architecture frameworks.**

Domain Expertise

- Solid knowledge of **financial accounting, controlling processes, and regulatory compliance.**
- Ability to translate **business requirements into technical solutions.**

Soft Skills

- Excellent **analytical and problem-solving skills.**
- Strong **communication and stakeholder management** abilities.
- Ability to **work cross-functionally** and **bridge business and IT teams**

Language

- **English: fluent** (written and spoken)

O nás

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
