# AUMOVIO

# Computer Vision and Machine Learning Intern [IDA: 00073]

## Your tasks

• Looking for a student in the area of Machine Learning with a focus on Computer Vision
• Develop and optimize AI models for image extraction. Perform feature extraction on facial images dataset.
• Convert extracted features into meaningful format useful for further processing
• Work with Research Engineers to further develop Proof of concepts / Demonstrators

## Your profile

• Strong understanding of Python and ML Libraries (Numpy, Pandas, Sci-kit learn)
• Experience with Pytorch, OpenCV
• Good Understanding of Computer Vision models and image processing
• Version control with git and Github/Gitlab
• Ability to research and work with minimal supervision

## Our offer

Ready to take your career to the next level? The future of mobility isn't just anyone's job.   Make it yours!   **Join AUMOVIO. Own What's Next.**

## About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
