

IT Support & Automation Intern

Your tasks

As an IT Support & Automation Intern, your tasks are:

- Performing hardware maintenance, asset management
- Supporting Client & Server administration (BMC, AD, LanDesk, etc.).
- Processing and handling tickets
- Roll-out/implement centrally released and locally developed tools, digitalization projects/solutions (BI reports, RPA projects, Web based tools, etc.) to location
- Design and implement tools, reports and dashboards based on local/central requirements.
- Experiment with LLM-based tools (e.g., GPT, Copilot) to solve business challenges

Your profile

- User support experience
- Relevant software tools and software packages (Power BI, UIPath, RPA)
- Software development skills (C# / .NET)
- Ongoing studies at a Hungarian university for 6 months at least in a technical area: Computer Science, Electronics, Electrical Engineering, or related area
- Good command of English language
- Able to work 24 hours/week in the office - between 9am and 5pm
- Interest in generative AI and LLMs (e.g., GPT, CoPilot, Azure)

In addition, it would be beneficial to:

- Have experience in Networks, PowerShell, CISCO network device
- Work independently, accomplish the tasks accurately and precisely
- Have team player attitude and good communication skills
- Be interested in industry leading technologies, patterns, processes, and best practices

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
