

# Mandatory Internship - AI applications for intelligent testing solutions in the automotive - REF54040

## Ihre Aufgaben

We are looking for a passionate intern(m/f/d) to support the development and integration of AI applications for intelligent testing solutions in the automotive industry, starting in January. This internship offers hands-on experience in applying AI and machine learning techniques to optimize and automate testing processes for advanced automotive systems, including ADAS and ECU validation.

## Ihr Profil

- **Python Programming:** Strong proficiency in Python for data processing and model development.
- **AI and Machine Learning:** Intermediate knowledge of AI concepts and ML algorithms.
- **Neural Networks:** Solid understanding of neural network architectures and training methods.
- **LLM Basics:** Familiarity with Large Language Models and their applications.
- **Problem-Solving:** Strong analytical and research skills with a willingness to learn quickly.

Before submitting your application, please make sure to include the following documents:

- Your current certificate of enrollment
- Your latest transcript of records
- Confirmation from your university that the internship is a mandatory part of your studies

If you are not from the EU, please also provide:

- A valid residence permit
- A work permit, including the supplementary sheet

Applications from people with severe disabilities are welcome.
