Senior Engineer - Optical Systems (m/f/d) - REF5673G

Responsabilități

We are seeking a Senior Engineer (m/f/diverse) for Optical Systems to join our Advanced Development Team (Head-Up Displays) in Babenhausen, Germany. In this role, you will be responsible for designing, developing, and optimizing advanced optical systems for cutting-edge imaging applications.

Your tasks will be:

- Develop next-level optical concepts for projection systems and head-up displays
- Analyze and optimize optical designs according to image quality metrics
- Specify requirements on light sources, image generators, optical components and provide inputs for temperature management in automotive applications
- Drive innovation at product and system level, in collaboration with internal & external partners
- Collaborate with internal expert community to ensure strategic fit from technology level to product level solutions

Cerințe

- Academic Degree in Engineering Science (e.g. Physics or Optical Engineering)
- Several years of professional experience in projection projects, preferably in the Automotive Industry
- Experience in programming, especially in optical simulation environment (Zemax OpticStudio, ASAP, CODE V) and MatLab/Python
- Good knowledge of using MS-Office Tools
- Very good knowledge of written and spoken German and English
- Intercultural competency
- Capability of Teamwork

Applications from severely handicapped people are welcome.
