

Head of Business Center Driver Assistance & Safety

Your tasks

The Head of Business Center Driver Assistance & Safety assumes a pivotal role in leading a department with a specific focus. This position carries substantial responsibilities, including:

- Overseeing and managing designated cost centers with P&L responsibility
- Bearing full responsibility for concept development, prototype creation, and series production within the framework of client projects
- Providing strategic leadership to employees and management (Lead Leaders), fostering a culture of excellence and continuous improvement
- Identifying and capitalizing on new business opportunities to drive departmental growth and company success
- Authorizing technical approvals for the department, ensuring adherence to the highest standards of quality and safety
- Actively promoting the department's products and elevating the profile of both the department and the company in the industry

This role demands unwavering commitment, strategic vision, and the ability to navigate complex challenges in the driver assistance and safety sector. The Head of Business Center must consistently demonstrate exceptional leadership, technical expertise, and business acumen to ensure the department's success and contribute significantly to the company's overall objectives.

Your profile

The ideal candidate for this critical role must possess the following qualifications:

- **Extensive Leadership Experience:** A minimum of 2 years as a Technical Project Leader (TPL) or in an equivalent position within the automotive or electronics sector, demonstrating "self-leadership" capabilities.
- **Project Management Expertise:** experience in projects encompassing planning, budgeting, structural development, and technical leadership.
- **Proven Track Record:** At least 10 years of relevant professional experience, with a significant portion in leadership roles.
- **Multidisciplinary Project Involvement:** Participation in multidisciplinary projects is mandatory.
- **Cross-Functional Expertise:** Demonstrated work experience in at least two of the following disciplines: Electrical Engineering (EE), Mechanical Engineering (ME), Software (SW), Systems Engineering (SYS), or Production.
- **Leadership Acumen:** A minimum of 2 years of professional leadership experience, which may include non-disciplinary leadership roles.

- **Global Perspective:** While international experience is highly valued, it is not a strict requirement. However, candidates must have worked in an international environment or team for at least one project.

These qualifications are essential for successfully leading our Business Center in Driver Assistance & Safety, ensuring our continued innovation and market leadership in this critical sector.

Our offer

At AUMOVIO, we own what we do. But what truly sets us apart are our people. People who thrive in our winning culture, driven by bold ideas. People who take a leap and create meaningful difference—together. Because we believe that the future belongs to those who own it. That's why we foster a culture where you own every step of the way.

Our Offer:

- Work on impactful, diverse projects driving the future of automotive innovation
- Collaborate internationally: work with teams and stakeholders across different sites and disciplines
- Benefit from flexible working hours
- Grow through learning & development opportunities and access to professional training Salary range (gross): 70.000€ - 90.000€ per year (base salary), depending on experience, skills and qualifications. Additional compensation/benefits: performance based bonus.

We are committed to fostering a workplace where everyone feels safe, respected, and valued. We encourage applications from all qualified candidates regardless of age, gender, nationality, cultural background, disability, religion, ideology or sexual orientation. If your profile matches the role, our team will reach out to you as soon as possible to discuss next steps.

Ready to take your career to the next level? The future of mobility isn't just anyone's job. Make it yours! **Join AUMOVIO. Own What's Next.**

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
