

SAP Controlling / Project System Consultant (m/f/d)

Tus actividades

To strengthen our team in Timisoara, we are looking for an experienced IT SAP CO or PS specialist with experience in programming with ABAP OO, SAP Analytic Cloud and SAP UI5.

Do you enjoy working on technical solutions within a global team, do you have extensive knowledge in the SAP Project System or Controlling, Investment Management, CATS modules and enjoy familiarizing yourself with new technologies, subject areas and processes?

Then, you've come to the right place.

Your responsibilities include:

- Administration and development of our project controlling applications with a focus on SAP Project System, CATS, SAP Investment Management, SAP UI5, SAP Analytics Cloud;
- Support and consulting our internal business partner during technical and functional issues;
- Handling incidents, problem and change tickets;
- Carrying out feasibility studies taking into account performance, usability, efficiency and quality aspects, including cost estimation;
- Evaluation of interfaces and coordination with responsible IT departments;
- Technical implementation of changes and corrections through programming (ABAP OO; RAP, SAP UI5) and Customizing;
- Execution of Key user training, preparation of system and user documentation;
- Functional and technical coordination and management of external partners and service providers;
- Responsibility and participation in international rollout, migration and change request projects;
- Collaborate with cross-functional teams to ensure seamless integration of SAP modules.

Tu perfil

- Information technology degree or comparable education.
- Several years of professional experience in technical support of SAP Project System, CATS, SAP IM modules.

Acerca de nosotros

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
