

Mandatory Internship – Product Management - REF6240S

Ihre Aufgaben

For the Product Management department at the Villingen-Schwenningen location, we are looking for a student (m/f/d) to start in **March 2026** as part of a mandatory internship for **6 months**. A combination of voluntary and mandatory internships is possible. The compulsory portion is at least 12 weeks. The tasks include:

- Support the product management team with various ad-hoc tasks, including telematic device onboarding, documentation, and coordination activities across cross functional teams
- Support product lifecycle activities, including preparing product documentation and assisting with feature prioritization
- Analyze product performance metrics and customer feedback to generate insights that support data driven decision making
- Assist in coordinating product-related projects, preparing presentations, and supporting communication between stakeholders and development teams
- Contribute to go to market preparations, including competitive analysis, content creation, and alignment with marketing and sales teams

Ihr Profil

- Students in the fields of Business Informatics, Business Management, or Industrial Engineering
- Confident use of common MS Office applications is desirable.
- Fluent German and good English skills, both written and spoken.
- Customer orientation, strong communication skills, team spirit, Analytical thinking, customer orientation, creativity & flexibility and the ability to work independently.

Please remember to upload your current certificate of enrollment, your current transcript of records, and an excerpt from your study regulations confirming the requirement for a mandatory internship, as these documents are essential for processing your application.

If applicable, please also submit your valid residence permit and your work permit including the supplementary sheet.

Applications from people with severe disabilities are welcome.

Über uns

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
