

Radar Sensing Algorithm Engineer

Vaše náplň práce

Design, develop and validate of radar sensor algorithm features, such as:

Radar Signal Processing / Sensor Array Processing

Environmental Modelling

Object Tracking and Classification

Multi-Sensor Fusion

Perform requirements analysis and translate them into optimal implementations

Develop sensing algorithms to meet product requirements

Analyze issues, find root causes and fix bugs in a creative way to optimize the performance of our algorithms

Utilize advanced data analysis techniques to provide insight and inspire future development to improve our product

Collaborate effectively with multiple engineering teams, both internal and external, to determine requirements, architecture and test methods to ensure on-time achievement of project objectives

AUMOVIO China Software & System Development Co., Ltd.

Váš profil

M.S. degree in Electrical Engineering, Signal Processing, Computer Science or other related engineering field

Professional knowledge in at least one of the following fields: Digital signal processing, Tracking algorithm, Association algorithm, Classification algorithm, etc.

Proficient in statistic concepts and mathematical modeling (Linear Regression, Statistical Distributions, Bayesian Techniques, etc...)

Proficient in C/C++, Python or Matlab programming

Professional English knowledge, speaking and writing

High level of critical thinking and problem-solving abilities

Good communication skills as well as customer- and quality orientation

O nás

In September 2025, AUMOVIO Group was established as an independent company following its spin-off from Continental's Automotive Group. As an electronics and technology company, AUMOVIO Group offers a wide range of products dedicated to making mobility safer, more enjoyable, connected, and autonomous. Its business portfolio covers sensor solutions, display technologies, braking systems, and comfort systems, along with comprehensive expertise in software, architecture platforms, and assistance systems essential for the software-defined vehicle.

The business areas that now belong to AUMOVIO Group generated €19.6 billion in sales in fiscal year 2024. Headquartered in Frankfurt, Germany, the Group employs around 87,000 people across more than 100 locations worldwide.
