

Senior Financial Analyst

Your tasks

At AUMOVIO, we own what we do: Developing and producing hardware, software, and services that shape the future of mobility. But what truly sets us apart are our people. People who thrive in our winning culture, driven by bold ideas. People who take a leap and create meaningful difference—together. Because we believe that the future belongs to those who own it. That's why we foster a culture where you own every step of the way.

Own your career, your growth, your skills, and your impact. Join us and own what's next.

Job description

Position serves as a valued business partner, leading key financial initiatives to support strategic decision-making, enable business growth, and maximize profitability

Key responsibilities:

Quoting Process:

- Participate Quote Kick-Off Meeting and review completeness of documentation; demand missing input from all interfaces
- Provide financial oversight during the quoting phase by evaluating critical cost drivers such as effort estimates, bill of materials, tooling, plant cost structure, commercial reimbursements, and other cost elements
- Lead PCIS (Product Costing Information System) calculations and secure necessary management approvals by consolidating cross-functional inputs (e.g., Sales, Controlling, Purchasing, Industrial Engineering) to ensure accurate business case modeling.
- Perform business case analyses using the PCIS tool, prepare customer cost breakdowns, financial bridges, and conduct ad hoc financial analysis to support new business opportunities

Project lifecycle management:

- Manage program controlling activities throughout the development phase, including tracking project profitability, recommending improvement actions, and partnering with execution teams to meet award-level targets
- Perform regular updates on RoS bridges to outline the development of different cost categories
- Perform regular PCIS updates (2x p.a.)
- Analyze and monitor profitability for projects in series production, including cost structure reviews, target setting, and CRP initiatives aimed at improving contribution margins
- Evaluate design changes during product life, manage cost reduction programs, make vs. buy analysis, conduct project profitability analysis.

About us

The Company

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
