

EE Architect_TN_202511_059

Vos activités

Responsibilities

- Responsible for all faces of the design and development process for automotive electronics product
- Derive the requirements from customer specification and provide solution architecture
- Build up the high-level EE architecture with interconnections for each modules.
- Provides the technical input and guidance for EE detailed design
- Lead EE Developers and support them in module design and testing, EE-SW integration testing and EMC testing and thermal testing.
- Plans and coordinates and monitors all test activities of a project on electronics level to provide a specific test status for release.
- Deliverables like EBOM, module design, DMFEA etc.
- Manage an EE project team to define, plan, realize and deliver agreed EE specific work products in time, quality and cost. Reports the progress and status of the EE project

Skills :

- Power supply architecture for any automotive electronics product
- Indepth knowledge on all major Microcontrollers
- Digital, Analog and frequency circuit design
- Sound knowledge on GSM, GNSS, Bluetooth, Wifi, Ethernet, Display and IMU.
- Sound knowledge on High side, Low side, and Bridge drivers
- Understanding of SPI, I2C, UART and CAN communication
- Experience supporting PCB layout to meet regulations required.
- Proficient in Worst Case Circuit Analysis
- Experience with EMC test plans, test setup, and troubleshooting.
- Knowledge on Functional safety and security.
- At least 5 years working experience in the Automotive Industry on Body control unit or Vehicle control unit.
- Prefer to have knowledge on two wheeler EV.

A propos de nous

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
