

PBI DevOps Engineer

Your tasks

Platform Ownership & Operations

- You will take end to end responsibility for developing, operating, and maintaining the AUMOVIO Power BI service. This includes managing the infrastructure, backend, and frontend components, as well as providing user support and contributing to selected projects within the global AUMOVIO environment
- The AUMOVIO Power BI service provides worldwide data visualization and analytics capabilities. In this role, you will collaborate with cross functional teams and subject matter experts from both business and IT across the entire AUMOVIO organization
- In the Power BI infrastructure team, you will manage the Power BI service within the Azure tenant, workspaces and capacities and their integrations in the global IT landscape
- The technical area of responsibility includes the whole Power BI infrastructure, from Capacities, Workspaces and their objects, Gateways and their operating systems, monitoring system design and improvements

Monitoring & Performance Optimization

- Continuously monitor the Power BI Azure capacities, to identify “not well” performing Azure pipelines or reports with the resulting duty to technically optimize those. In detail also identify and re-develop “not well” performing data computations in Power BI in front loading data-systems like Databricks (SQL)

Support, Troubleshooting & Customer Interaction

- Your daily life and tasks will be assigned via our ticket system, out of customer requests or monitoring tickets. This results in troubleshooting and sustainable bug-fixing. Beyond tickets, you will also consult service customers to solve issues and recommend improvements.

Continuous Improvement & Innovation

- This includes identifying, designing and implementing new methods/tools to continuously improve the whole supported ecosystem

Governance, Security & Compliance

- Responsible for the development of new use-cases ensuring Cybersecurity and Data Governance standards

Collaboration & Coordination

- Coordination of internal / external resources to support the above tasks.

Job ID
REF7153N

Location
Makati City

Leadership level
Leading Self

Legal Entity
AUMOVIO Philippines, Inc.

- Cross functional cooperation with all IT Functions (Cybersecurity, IT Infrastructure Network, ...) to support the above tasks

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
