

Procurement Material Planning Supervisor

Your tasks

OVERVIEW:

- The Procurement Manager leads a team of Material Planners who evaluate the forecasted demand of the business segments of Commercial Vehicle and Services, Original Equipment Services and Aftermarket and procure the necessary materials to support warehousing and distribution across North America.
- The Procurement Manager is responsible for the overall performance of the material planning department. This includes but is not limited to establishing material planning strategies and processes, monitoring material availability and inventory levels, escalation of material shortages with internal and external suppliers, establishing the production schedule and supporting the organization to achieve common and individual goals of the Business Segments in the Allentown site.
- The Procurement Manager has to display a high degree of communication, coordination, and technical skills to perform their duty.
- The Procurement Manager interacts with suppliers, with other departments in the company, and to a high degree with other Supply Chain Management personnel throughout the Business Area.
- The Procurement Manager reports to the Head of Supply Chain Management within the location.

HOW YOU WILL MAKE AN IMPACT:

- Disciplinary responsibility for all Material Planners at the Allentown site.
- Determine and organize daily activities and prioritize the tasks to achieve performance goals and support internal and external customer requirements
- Monitor KPI's to measure and manage the performance of the Material Planning Department, including material availability and inventory level for finished goods, buy-resell and component parts; freight cost; communicate to the team; track and monitor achievement to KPIs
- Review and analyze the material planning parameters in SAP; recognize material shortages and overages; initiate corrective actions and monitor impact to inventory levels; reduce freight cost.
- Lead monthly Volume Review Meetings with Product Management/Sales in order to meet Sales and Inventory targets;

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
