

Internship for REL Laboratory (Iasi)

Tvoji zadaci

A car is made of hundreds of parts, and we test the reliability of each of them. We simulate the real-life conditions that each component must endure through induced vibrations, extreme weather conditions, corrosion environments, etc. Our job is to make sure the tests are performed according to international standards, reported correctly, and following well rounded processes and timings.

You will be handling the laboratory equipment and conduct tests reporting findings to a laboratory engineer. The goal is to optimize lab procedures and success in producing reliable and important results that can be used to make a difference.

Do you want to be a Internship for REL Laboratory in Automotive Systems? These should spark your interest:

- Receive, label, and inspect samples (electronics, mechanical parts, etc.);
- Record all data and results in specified forms (paper and electronic) with accuracy and responsibility;
- Maintain the lab equipment and assist in ordering laboratory supplies;
- Ensure that all safety guidelines are always followed strictly and maintain a clean and orderly environment;
- Perform electronic validation activities on the prototypes (embedded systems);
- Perform mechanical validation;
- Interact with application SW;
- Use of hardware & software tools to run the test procedure.

A mentor will support in taking over own responsibility through an initial training phase which will familiarize you with our products, tools, processes, and organization.

Tvoj profil

You can be a perfect match to our team if you have:

- Ongoing University Degree in technical fields (e.g. Mechanics , first year of a master's degree);
- Experience with laboratory equipment (power supply, multimeter, dynamometric key etc.);
- English language skills.
- Understanding of electronic circuits, mechanics, kinematics, strength of materials;
- Working knowledge of MS Office and database systems;
- Ability to work autonomously.

O nama

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
