

Internship for EMC Laboratory (Iasi)

Your tasks

A car is made of hundreds of pieces and we test the compatibility and electrical behavior of each of them. Those components may emit RF noise or be exposed to external sources of energy, resulting in unanticipated changes in system operation. Automotive electrical components, systems and sub-assemblies must meet electromagnetic compatibility (EMC) requirements for all major car manufacturers.

In our laboratory we simulate the real-life conditions that each component must endure through radiated immunity, conducted immunity, transients and electrical tests, etc.

Our job is to make sure the tests are performed according to international standards and customer specifications, reported correctly and following well rounded processes and timings.

If you're interested in enhancing your testing, technical and troubleshooting skills, our team values talent, learning and personal growth.

Do you want to be a Internship for EMC Laboratory? These should spark your interest:

- Is responsible to assist of different EMC tests;
- Assist to small design activities and laboratory improvement projects;
- Assembly of various test setups and test modules for different projects;
- Is responsible for logistic activities (packaging, handling, delivery and tracking) of packages;
- Assist monthly verification of some equipment and test chains
- Offers support for test engineers and equipment maintenance.

A mentor will support you to stepwise take over own responsibility after an initial training phase which will familiarize you with our products, tools, processes and organization.

Your profile

You can be a perfect match to our team if you have:

- Ongoing University Degree in technical fields (e.g. Electronics, Electrotechnics, Telecommunications);
- Practical experience in different test processes or practical experience using test tools: instrumentation for measurement and control;
- Basic knowledge of HW electronics;
- Good communication and team player skills;
- Medium English language level.

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
