

Software Engineer - Fullstack

Your tasks

Overview:

As a Full Stack Software Engineer, you will work alongside a talented team to develop, enhance, and maintain cutting-edge software solutions for both internal tools and client-facing applications. You'll be involved in all aspects of the software development lifecycle, from conceptualization to deployment and beyond.

Core Responsibilities:

- Develop, enhance, and maintain our software solutions, ensuring high-quality, efficient, and scalable code.
- Conduct thorough requirement analysis to understand client needs and translate them into technical specifications.
- Design, implement, and optimize both frontend and backend components of our applications.
- Perform rigorous testing, debugging, and troubleshooting to ensure optimal performance and reliability of our software.
- Stay updated with the latest industry trends and technologies, recommending and implementing improvements to our tech stack as needed.
- Optimize application performance, responsiveness, and database efficiency.
- Provide technical guidance and mentorship to junior developers when required.

Your profile

Qualifications:

- Bachelor's Degree in Informatics Engineering, Computer Science or similar.
- Solid knowledge of C# and .Net Core
- Solid knowledge of Front-end framework (e.g., Angular/React)
- Solid knowledge of API Development
- Solid knowledge of Software Architecture like Micro-Services
- Fluent in English
- Familiarity with Code Compliance and Best Practices
- Familiarity in collaboration methods and tools (e.g., Agile and Git)
- Cloud experience - Nice to have

Ready to take your career to the next level and join us at the start of something extraordinary? Apply now to become a part of AUMOVIO and drive the future mobility together with us!

About us

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~93,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
