

IT Solution Manager – Finance Applications (TM)

Vaše náplň práce

As an SAP FI IT department, we are proud on delivering innovative IT solutions. Our global organization and projects are diverse, exciting and full of opportunities to make a real difference. However, what really sets us apart is our exceptional team spirit. We are driven by a shared passion for excellence, striving for shared success based on trust, mutual support and the freedom to take initiative. Together we celebrate our successes and exceed expectations to create impactful solutions.

Help shape the future – join a newly established, forward-looking IT team!

We are building a new IT team for the **Treasury, Tax, Risk & Law** domain and are looking for motivated professionals who want to take ownership of diverse IT services and develop modern SAP technologies with us. Unlike traditional SAP module teams, we manage **over 40 services** across a variety of technologies and platforms – a true unique position in our IT landscape.

Your Responsibilities

- **Service Ownership & Solution Management**
 - Take end-to-end ownership of assigned IT services – from design to operations and continuous improvement
 - Drive the full service lifecycle and ensure high service quality and performance
 - Coordinate internal and external stakeholders, including service providers and consultants
- **Requirements & Project Management**
 - Collaborate closely with business departments to gather, assess, and translate requirements into technical solutions
 - Create functional and technical concepts for the implementation of IT solutions
 - Take over project responsibility – including planning, execution, and progress monitoring
- **SAP Development & Technology Enablement**
 - Support the implementation of SAP-related developments (ABAP, Fiori/UI5, CDS Views, BTP)
 - Contribute to the team's internal development capabilities and foster know-how in emerging SAP technologies
 - Actively shape and drive innovation and digitalization initiatives using new SAP tools (e.g., Fiori, BTP, SAC)
- **Operations & Support**
 - Ensure stable and secure operation of all assigned services
 - Provide 2nd- and 3rd-level support and coordinate global key user support
 - Manage interfaces, optimize technical processes, and resolve incidents collaboratively

Ready to take your career to the next level? The future of mobility isn't just anyone's job. Make it yours! **Join AUMOVIO. Own What's Next.**

O nás

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~93,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
