AIOps Intern [IDA:00068]

หน้าที่ความรับผิดชอบในงานของคุณ

We are looking for an AIOps Intern to join our AI and data platforms team. In this role, you will gain handson experience in DataOps and MLOps while contributing to the development of scalable and efficient AI
solutions. You will work closely with experienced engineers, explore new tools and platform features, and
help improve our data and AI workflows.

- Develop DataOps solutions, including designing database schemas, building data pipelines,
implementing data quality check, data monitoring.
- Support MLOps processes such as model tracking, versioning, and deployment.
- Contribute to CI/CD workflows using GitHub Actions, Jenkins, or similar tools.
- Explore new features in our AI and data platforms and document findings to support the team.

โปรไฟล์ของคุณ

- Currently pursuing an undergraduate or master's degree in Computer Science, Data Science, Machine
Learning, or a related field.
- Strong interest in DataOps, MLOps, and cloud technologies.
- Strong programming skills in Python.
- Some experience with the machine learning development lifecycle, including data preparation, model
training, evaluation, deployment, and monitoring.
- Some experience with version control software like GitHub
- Ability to work independently and collaboratively in a dynamic team environment.
- Excellent written and verbal communication skills.
- Prior experience with cloud platforms (e.g., AWS) is a plus.
- Prior experience in data engineering (e.g., Spark, SQL, Databricks) is a plus.
