

Internship - Training & Management Support for Quality Operations - REF5189E

Your tasks

We are looking for an intern (m/f/diverse) **starting in September** to actively support our team in the area of Quality Management with various topics and projects. As part of an internship **lasting approximately 6 months** (a combination of a mandatory internship and a voluntary internship is also possible), we offer you an attractive opportunity to ideally combine and expand your theoretical knowledge with different aspects of practical experience.

Your tasks include:

- Support in planning, setting up, and conducting training sessions for Q-experts on Structured Problem Solving (SPS) as well as formats for introducing AI for quality and operations
- Preparing concept, design and material (digital and handwritten paper-based), organizations, execution, preparation and post-processing
- Assistance in managing and processing problem-solving cases
- Setting up and maintaining Office365 community environments, such as in SharePoint and Teams
- Participation in the development and implementation of strategies to ensure quality standards in processes
- Preparation and compilation of decision-making documents for the management of the business unit
- Support in creating and designing presentations for various stakeholders

Your profile

Are you wondering whether you're a good fit for the internship in Quality Management Operations?

Here are the key qualifications we're looking for:

- Current enrollment in a degree program in (industrial) engineering, IT, business administration, or a comparable field of study, ideally with a focus on production or quality management
- Experience organizing Event and/or Trainings, live for small groups
- Confident handling of MS Office programs
- Proactive engagement in your areas of responsibility as well as actively contributing ideas
- Very good English skills (written and spoken) are absolutely essential
- German skills desirable

In addition to these technical qualifications, we are also looking for certain personal qualities and skills:

- Independent and reliable working style
- Strong communication, planning, and organizational skills, with an

enjoyment of collaborative work

- An unconventional, creative mindset and a flexible approach

Further nice to have abilities:

- Creativity and artistic streak (for example for designing flipcharts using easy sketchnotes and icons)
- Clear handwriting for design of flipcharts
- Experience in day-to-day use of AI tools for various applications, from text generation to creating VBA scripts for automation in Excel

Please remember to upload your current certificate of enrollment, your current transcript of records, and an excerpt from your current study regulations regarding the completion of a mandatory internship, as these are essential for processing your application!

If applicable, please also submit a valid residence permit and your work authorization including the supplementary sheet.

Applications from people with severe disabilities are welcome.

Our offer

- Independent and responsible working style
- Hybrid working at the site and from home
- Pleasant working environment and a work atmosphere characterized by professional and personal appreciation
- Compensation according to corporate standards
- Good public transport connections and free use of employee parking spaces

If you see yourself in this position and are excited to work with us on exciting projects, apply now and become part of our team!

Diversity, inclusion, and belonging are important to us and make us strong and successful as a company. We offer equal opportunities to everyone – regardless of age, gender, nationality, cultural background, disability, religion, worldview, or sexual orientation.

Ready to take your career to the next level? The future of mobility isn't just anyone's job. Make it yours! **Join AUMOVIO. Own What's Next.**

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
