2nd AUMOVIO star Internship_R&D Intern

(Business Area : Architecture and Networking Solutions, Light Solutions)

We are seeking a detail-oriented and analytically-minded Light Solutions R&D Intern to join our team. This internship offers an excellent opportunity to gain hands-on experience in the Light Solutions industry while working alongside experienced professionals.

- Assist in the design, testing, and evaluation of light solutions and related technical systems
- Conduct research and analysis on lighting technologies, specifications, and industry standards
- Collaborate with cross-functional teams to troubleshoot technical issues and implement solutions
- Participate in laboratory testing and quality assurance activities for light solutions products
- Support the development of technical specifications, documentation, and reports

Votre profil

Required Skills:

- Strong analytical and problem-solving abilities
- Excellent organizational and time management skills
- Attention to detail and accuracy in technical work
- Effective written and verbal communication skills
- Ability to work collaboratively within a team environment
- Technical aptitude and willingness to learn new technologies

Preferred Skills:

- Familiarity with lighting technology, optical systems, or related technical fields
- Experience with CAD software or technical design tools
- Basic knowledge of electrical systems or physics principles
- Experience reading and interpreting technical documentation and specifications
- Project experience in a technical environment
- Understanding of quality assurance and testing methodologies

Experience:

- Bachelor degree in Electrical Engineering or related field (including current students)
- Demonstrated experience with technical projects or laboratory work

A propos de nous

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 86.000 employees in more than 100 locations worldwide.
