

SCM Performance Value Chain Manager APAC

หน้าที่ความรับผิดชอบในงานของคุณ

Main Tasks 主要职责

1. Data Analytics & Reporting

- Develop and maintain **dashboards, predictive models, and automated reports** (e.g., special management requirement, task force, inventory, logistics costs, supplier performance).
- Perform **root-cause analysis** on supply chain disruptions (e.g., delays, excess inventory) and recommend corrective actions.
- Standardize data definitions and metrics across APAC to ensure **cross-country comparability**.

2. Performance Management

- Define and track **SCM KPIs** with drill-down capabilities for regional/local teams.
- Conduct **benchmarking** against industry standards and identify improvement opportunities.
- Lead **monthly business reviews** with stakeholders to align on targets and progress.

3. Value Chain Optimization

- Identify **automation opportunities** (e.g., replacing manual Excel tracking with Power BI/Python scripts).
- Collaborate with IT to **cleanse and enrich master data** (e.g., SKU attributes, supplier tiers, logistics lanes).
- Implement "**single source of truth**" databases to break down silos (e.g., integrate procurement, logistics, and customs data).

4. Stakeholder Collaboration

- Partner with **Plant SCM, and Finance** to align data needs (e.g., total cost modeling).
- Translate technical analyses into **executive-level insights** for APAC leadership.
- Train local teams on **self-service analytics tools** (e.g., Tableau, SAP Analytics).

5. Resilience Supply Chain

- Collaborate with PUR, Production, SCM, and other departments, assess vulnerabilities in the existing supply chain and develop a resilience map.
- Build a Supply Chain Risk Early Warning and Response System, design end-to-end risk monitoring mechanisms (covering geopolitical risks, natural disasters, supplier financial risks, etc.)
- Regularly report supply chain resilience status to senior leadership, advocating for organizational resource allocation toward resilience

ເກື້ອງກັບເຮົາ

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
