

AUMOVIO star Internship_Quality_Architecture and Networking Solutions

Ihre Aufgaben

2nd AUMOVIO star Internship_Quality Intern

(Business Area - Architecture and Networking Solutions)

The Quality Intern will support the Quality Team in analyzing field vehicle quality issues and assisting with new vehicle quality-related documentation for Hyundai Motors projects. This position provides hands-on exposure to automotive quality processes, data analysis, and collaboration with OEM(Original Equipment Manufacturer) quality standards.

Key Responsibilities:

- Support analysis of **field vehicle quality issues**, including warranty claims, customer complaints, and defect trends
- Collect, organize, and analyze quality-related data to identify patterns and support root cause analysis
- Assist in preparing **quality reports, presentations, and dashboards** for internal and OEM use
- Support **new vehicle quality activities for Hyundai Motor**, including documentation, checklists, and validation materials
- Assist with preparation and maintenance of **quality process documents**, such as inspection standards, quality manuals, and reports
- Collaborate with cross-functional teams (Quality, R&D, Production, Supplier Quality) to support issue tracking and follow-up actions
- Support preparation for customer meetings, audits, and quality reviews as needed

Ihr Profil

Required Qualifications:

- **Bachelor degree** in Engineering (Mechanical, Automotive, Industrial, Electrical) or a related field (current students)
- Strong interest in **automotive quality management** and vehicle quality issues
- Basic understanding of **quality concepts** (e.g., defects, root cause, corrective actions)
- Ability to analyze data using **Excel or similar tools** (pivot tables, charts, basic data handling)
- Strong organizational and communication skills in **English** (written and verbal)
- Proactive attitude and willingness to learn in a fast-paced environment

Job ID
REF8348T

Standort
Seongnam-si

Rechtliche Einheit
AUMOVIO Korea Ltd.

Preferred Qualifications:

- Familiarity with **automotive quality standards** (e.g., IATF 16949, APQP, PPAP, FMEA) or OEM quality requirements
- Experience with **advanced data analysis or reporting tools** (Excel advanced functions, Power BI)
- Ability to read or understand **technical drawings and specifications**
