

Central Key User SAP Analytics Cloud (SAC) (m/f/diverse) - REF84287M

あなたの仕事内容

You will be responsible to define, create, implement authorization concepts and secure standards in BI & Reporting process based on SAC, and also to implement SAC Function along with S/4HANA in Continental Automotive legal entities.

Do you want to be a **Central Key User SAP Analytics Cloud (SAC)**

These should spark your interest:

1. SAC Reporting & Dashboard Development

- Design and implement SAC stories and dashboards for Group Reporting, consolidation, and performance KPIs.
- Enable self-service reporting by creating intuitive SAC front-end solutions for finance users.
- Manage the SAC model layer, scripting, and data wrangling for various use cases.

2. BW and Query Design

- Develop, optimize, and maintain queries in SAP BW/BW/Cfin/4HANA as a foundation for SAC reports.
- Ensure consistency and performance across data models and query structures.
- Collaborate with SAP BW, CFin and S/4HANA consultants to enhance the data architecture.

3. Central Finance Integration

- Support reporting and analytics based on Central Finance architecture (SAP S/4HANA Central Finance).
- Ensure correct data mapping, replication, and transformation from source systems into the CFin environment.
- Work with finance and IT stakeholders to build consistent reporting layers using CFin data.

4. Group Reporting & Consolidation

- Create SAC dashboards and reports tailored to group consolidation and legal/statutory reporting needs (e.g., IFRS, local GAAP).
- Support financial close processes by delivering timely, high-quality

reporting tools.

- Coordinate with consolidation teams and ensure alignment of reporting KPIs and structures.
- **5. Collaboration & Support**
- Act as a key liaison between Finance, Group Reporting, and IT for analytics and reporting topics.
- Conduct workshops and trainings for end users and provide 2nd-level support for reporting tools.
- Document solutions and contribute to knowledge transfer and upskilling within the team.

あなたのプロフィール

You could be a perfect match to our team if you have:

- Graduated in Business Administration, IT or Business Informatics (e.g. Bachelor or Master)
- Multiple years of hands-on experience with SAP Analytics Cloud (story design, scripting, model management).
- Proven experience in SAP BW/BW/4HANA query design and modeling.
- Experience in Group Reporting and Consolidation environments (preferably using S/4HANA for Group Reporting).
- Good understanding of SAP Central Finance architecture and data replication (SLT, AIF, etc.). Experience with SAP S/4HANA Finance modules is a plus.
- Strong proficiency in SAC (stories, analytics designer, scripting, planning optional).
- Hands-on BW query design and modeling skills
- Strong communication and stakeholder management skills.
- Structured, analytical thinker with problem-solving ability.
- High sense of ownership and ability to work independently.
- Fluent in English; German is a plus

Applications from severely handicapped people are welcome.
