

INDUSTRIAL ENGINEERING SPECIALIST

Your tasks

Efficient management of the development and maintenance of processes for all s.l.p. regarding efficiency, performance (OEE), quality and continuous improvement aspects, through corporate tools of lean manufacturing.

Your profile

Main tasks:

Development of new processes:

Execution advance project on new processes .

Execution simultaneous engineering between product/process development .

Execution of cost engineering estimates on modification in existing processes.

Study, design and implementation of assembly lines automatic and semiautomatic

Execution of scope of supply (SOR) for new equipment.

Execution supply purpose release (SOR) for existing lines or modifications.

Supplier management in the development of new lines and processes.

Management of plant continuous improvement:

Execution of analysis to implement new processes solutions on existing equipment.

Execution of analyses 5S/8D: problem root cause definition.

Follow rumpup new processes.

Execution of shared action plans to improve.

Daily analysis of process data and comparison between them, to define new areas of action to improve process performance.

Execution of the plant's largest facilities.

Process documentation development:

Lead interfunctional meeting to PFMEA develop

Job ID

Gloriana Baccino

Legal Entity

Continental Brakes Italy S.p.A.

Participate actively to OEE committee and promote Health and Safety activities

Development of process instructions and train staff for new processes

Design of medium implementations on equipment/processes existing.

Prepare material and equipment lists, purchase orders, cost analyses and estimated production costs.

Interdisciplinary activities:

Support for rumpup new processes.

Support for bill of material management

Support for process innovation activities.

Support the plant's critical processes.

Support for the implementation of the plant layout.

Our offer

Ready to take your career to the next level and join us at the start of something extraordinary? Apply now to become a part of AUMOVIO and drive the future mobility together with us!

About us

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~93,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
