

## Principal Lead IC Analog Layout Engineer - A TO (TM)

### Tus actividades

As a Lead Layout Engineer, you will be responsible for the top-level integration of analog and mixed-signal ICs. You will lead the layout development process, ensuring robust, DRC-compliant designs with optimal area utilization. You will collaborate closely with analog circuit designers and other layout engineers to deliver high-quality silicon.

### Key Responsibilities

- Lead the top-level layout integration of analog/mixed-signal chips (analog on top);
- Define and implement floorplanning and padframe design;
- Generate and integrate analog layouts at block and chip level;
- Perform pin placement, parasitic extraction, and layout optimization;
- Ensure compliance with DRC, LVS, and support tape-out activities;
- Collaborate with design engineers to meet speed, area, power, DFM, ESD, and EMV requirements.

### Tu perfil

- Master of Science / PhD in Electrical Engineering / Microelectronics / Physics or similar;
- 5-10 years of experience in analog layout design;
- Proven experience in top-level layout integration;
- Strong expertise in BCD technologies (65nm to 180nm);
- Deep understanding of deep submicron effects (parasitics, coupling, matching);
- Proficient in layout tools for design, DRC, LVS, and extraction;
- Basic knowledge of analog circuit design.

### Lo que ofrecemos

#### What we offer:

##### Pay for Performance:

- Achievement Bonuses and Rewards;
- Relocation Bonus for non-Timisoara Residents;
- Recommendation Bonuses for new team members;
- Flexibility Program including flexible hours, mobile work and sabbaticals.

##### Wellbeing:

- Health & Wellness (Private Health Insurance, Life Insurance, Sport activities etc.);
- Different discounts (glasses, tires, medical, shopping);
- In-house restaurant & coffee corners.

### Life-Long Learning:

- Technical, Soft Skills & Leadership trainings;
- Dedicated Programs and Conferences;
- Free Language Courses (English, German, French etc);
- Access to e-learning platforms;
- Career development opportunities (local and international);
- Internal development communities (Experts, Agile Community of Practice, Artificial Intelligence etc).
