

Lead Layout Engineer for IC Analog design - A OT (TM)

Your tasks

As a Lead Layout Engineer, you will be responsible for the top-level integration of analog and mixed-signal ICs. You will lead the layout development process, ensuring robust, DRC-compliant designs with optimal area utilization. You will collaborate closely with analog circuit designers and other layout engineers to deliver high-quality silicon.

Key Responsibilities

- Lead the top-level layout integration of analog/mixed-signal chips (analog on top);
- Define and implement floorplanning and padframe design;
- Generate and integrate analog layouts at block and chip level;
- Perform pin placement, parasitic extraction, and layout optimization;
- Ensure compliance with DRC, LVS, and support tape-out activities;
- Collaborate with design engineers to meet speed, area, power, DFM, ESD, and EMV requirements.

Your profile

- Master of Science / PhD in Electrical Engineering / Microelectronics / Physics or similar;
- 5-10 years of experience in analog layout design;
- Proven experience in top-level layout integration;
- Strong expertise in BCD technologies (65nm to 180nm);
- Deep understanding of deep submicron effects (parasitics, coupling, matching);
- Proficient in layout tools for design, DRC, LVS, and extraction;
- Basic knowledge of analog circuit design.

Our offer

What we offer:

Pay for Performance:

- Achievement Bonuses and Rewards;
- Relocation Bonus for non-Timisoara Residents;
- Recommendation Bonuses for new team members;
- Flexibility Program including flexible hours, mobile work and sabbaticals.

Wellbeing:

- Health & Wellness (Private Health Insurance, Life Insurance, Sport activities etc.);
- Different discounts (glasses, tires, medical, shopping);
- In-house restaurant & coffee corners.

About us

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
