

R&D Project Manager

Your tasks

The Project Manager leads and manages a project within the specified time, budget and quality framework to the satisfaction of the customers (Internal & External) reaching profitability target of the product over lifetime. Ensure proper communication and information flow within the team and all project stakeholders.

Core responsibilities:

- Project central interface with customer (internal and/or external) to ensure alignment and achievement of customer project milestones.
- The assigned project is developed by following the internal PLC (Product Life Cycle) structure and including all disciplines coordination.
- Establishing, preparing and tracking the schedule for implementation. Define corrective measures if deviating from the project schedule.
- Responsible for project budget and project resources control based on approved project structure.
- Accountable for the successful execution of all tasks necessary to achieve agreed functional, quality, timing and financial objectives.
- Hold regular team/customer meetings to ensure proper task alignment and customer expectations being met.
- Manage escalation of tasks within the cross-functional team as needed with RnD Management Team.
- Report the project status during the various needed situation (Management meetings, Project reviews).
- Enter proper data into project management tools and tracking systems (ePSR, Global PS, Planisware).
- Perform the change management.
- Ensure interfaces between product development and manufacturing teams in the region are aligned.
- Coordinate with production plant to ensure all industrialization/start up milestones are met according to project schedule.
- Help to build up a supportive culture of cooperation and teamwork within the project.
- With the support of quality, drive resolution of OKM & common field related warranty issues.
- Additional project management support tasks as workload permit.

About us

Since its spin-off in September 2025, AUMOVIO has operated as an independent company, continuing the previous automotive business of the Continental Group. This technology and electronics company offers a broad portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems, as well as comprehensive expertise in software, architecture platforms, and software-defined vehicle assistance systems.

In fiscal year 2024, the business areas now belonging to AUMOVIO generated sales of €19.6 billion. The company is headquartered in Frankfurt, Germany, and has approximately 87,000 employees in more than 100 locations worldwide.
