AUMOVIO

System Engineer – Orin/Thor ADAS HPC(High-Performance Computing) in Architecture and Network Solutions R&D | AUMOVIO Korea

Descrição da função

System Engineer – Orin/Thor ADAS HPC(High-Performance Computing) in Architecture and Network Solutions R&D | AUMOVIO Korea

Role Overview

The System Engineer defines and manages the system architecture and requirements for an Orin / Thor–based ADAS(Advanced Driver Assistance Systems) HPC(High-Performance Computing), with preferred experience in ADAS–cockpit system integration involving Qualcomm platforms.

Key Responsibilities

- Define system architecture centered on Orin / Thor
- Derive and manage system requirements from OEM(Original Equipment Manufacturer) inputs
- Allocate requirements across Hardware, Software, Electrical and Electronics, and mechanical domains
- Ensure system consistency, traceability, and technical feasibility
- Support system integration, validation, and issue resolution

Quem somos

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 86.000 employees in more than 100 locations worldwide.
