

# Electrical Engineer (EE) – ADAS HPC Power (12V / 48V) in Architecture and Network Solutions | AUMOVIO Korea

## Descrição da função

Electrical Engineer (EE) – ADAS HPC Power (12V / 48V) in Architecture and Network Solutions | AUMOVIO Korea

## Role Overview

The Electrical Engineer designs and validates power systems (12V / 48V) for Orin / Thor-based ADAS HPC platforms, with preferred experience supporting cockpit power architectures.

## Key Responsibilities

1. Design power supply architectures for Orin/Thor HPCs
2. Support 12V and 48V vehicle electrical systems
3. Define protection, conversion, and power distribution concepts
4. Support EMC, reliability, and vehicle integration validation
5. Collaborate closely with system and mechanical teams

## Requisitos

1. Degree in Electrical or Electronic Engineering
2. Experience with automotive ECU power design
3. Strong understanding of 12V / 48V vehicle systems
4. Experience supporting HPCs preferred
5. Qualcomm cockpit power experience is a plus

## **Quem somos**

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 86.000 employees in more than 100 locations worldwide.
