

Technical Project Leader(TPL) in Architecture and Network Solutions (Light Solutions) | AUMOVIO Korea

工作职责

Technical Project Leader(TPL) in Architecture and Network Solutions (Light Solutions) | AUMOVIO Korea

Position Overview: The Technical Project Lead (TPL) is responsible for managing and guiding technical projects from inception through completion. This role involves defining project objectives, managing resources, overseeing the project team, and ensuring successful project delivery. The TPL will collaborate closely with various stakeholders, including the global R&D team, to ensure that project goals are met within the designated timelines and budget.

Responsibilities

- **Technical Project Management:**
 - Lead and manage technical projects, ensuring alignment with organizational goals.
 - Define project goals, including deliverables, schedules, and quality standards.
- **Project Planning and Control:**
 - Develop and maintain comprehensive project plans in accordance with company procedures.
 - Control and monitor project budget and resource allocation.
 - Establish effective project organization, including meeting structures, information/knowledge exchange, documentation, and archiving processes.
- **Team Leadership:**
 - Lead project team members functionally, providing clear direction and support.
 - Assign work packages to respective project team members, ensuring accountability and progress.
 - Foster a collaborative and productive team environment.
- **Stakeholder Collaboration:**
 - Collaborate with the global R&D team and other relevant stakeholders.
 - Negotiate engineering changes and communicate effectively with customers.
 - Manage relationships with internal and external stakeholders to ensure project success.
- **Risk Management and Reporting:**
 - Identify and mitigate project risks, ensuring proactive issue resolution.
 - Report overall project status to senior management and escalate issues when necessary.
 - Ensure transparency and regular communication regarding project progress and challenges.
- **Quality Assurance:**
 - Ensure that project deliverables meet the required quality

关于我们

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 86.000 employees in more than 100 locations worldwide.
