

Project Management Intern - Automotive Electronics

Ihre Aufgaben

At AUMOVIO, we own what we do: Developing and producing hardware, software, and services that shape the future of mobility. But what truly sets us apart are our people. People who thrive in our winning culture, driven by bold ideas. People who take a leap and create meaningful difference—together. Because we believe that the future belongs to those who own it. That's why we foster a culture where you own every step of the way.

Own your career, your growth, your skills, and your impact. Join us and own what's next.

Job description

Support the execution of automotive electronics programs by contributing to project planning, progress tracking, data-driven analysis, and cross-functional coordination.

The role focuses on enabling efficient project execution and decision-making through structured reporting, risk visibility, and alignment across teams.

Key Responsibilities

Project Execution & Tracking

- Maintain project trackers and support alignment with scope, schedule, and deliverables
- Monitor progress vs. milestones and highlight risks, delays, and dependencies
- Ensure consistency and accuracy across project data and status

Reporting & Performance Monitoring

- Prepare dashboards, status summaries, and trend analyses
- Consolidate inputs into clear, actionable reporting for stakeholders
- Support preparation of materials for project and customer reviews

Data Analysis & Decision Support

- Analyze program data to identify trends, inconsistencies, and risks
- Support structured problem-solving and scenario evaluation
- Translate data into insights that support project decisions

Cross-functional Coordination

- Work with engineering, operations, quality, and program teams
- Track interdependencies and follow up on open actions
- Maintain structured action and issue tracking

Job ID

REF9024Z

Arbeitsbereich

Projektmanagement

Standort

Auburn Hills

Rechtliche Einheit

AUMOVIO Systems, Inc.

Execution & Readiness Monitoring

- Support visibility of execution readiness (key activities, constraints, dependencies)
- Highlight bottlenecks impacting program delivery

Continuous Improvement

- Identify opportunities to improve tracking, reporting, and workflows
- Support standardization of tools and processes

Key Deliverables

- Updated project trackers and dashboards
- Structured status reports and visual summaries
- Data-driven insights and risk indicators
- Action and issue tracking logs
- Presentation materials for project reviews

Success Criteria

- Provides accurate, timely, and structured visibility of project status
- Identifies risks and inconsistencies early
- Supports data-driven decision-making
- Improves clarity and alignment across teams
- Contributes to efficient and disciplined project execution

Context

- Multi-project environment with cross-functional collaboration
- Dynamic setting requiring strong coordination, planning, and execution discipline

Ihr Profil

- Must be enrolled in a US accredited degree program pursuing a Bachelor's degree in an engineering discipline related to electronics (electrical engineering, mechatronics, or automotive engineering) or Business for the duration of the internship.
- Must have a GPA of 3.0 or higher
- Ability to work onsite and full time during the summer and part time during the academic year
- Sophomore standing or higher
- Working knowledge of Excel for basic data analysis and structured datasets
- Familiarity with PowerPoint and reporting tools to support presentations and insights
- Exposure to Power BI or similar data visualization tools (academic or hands-on experience)
- Interest in or introductory experience with AI-enabled tools such as Microsoft Copilot or automation tools
- Strong analytical skills with the ability to communicate clearly and professionally

AUMOVIO will not sponsor individuals for employment visas now or in the future for this job posting.

AUMOVIO does not offer relocation assistance for this opportunity.

Additional Ways To Stand Out

- Exposure to project management methodologies (Agile, Waterfall, hybrid)
- Interest in automotive electronics or complex product development

Unser Angebot

All your information will be kept confidential according to EEO guidelines.

What we offer

- Paid Time Off
- And many more benefits that come with working for a global industry leader!

EEO-Statement:

EEO / AA / Disabled / Protected Veteran Employer. AUMOVIO offers equal employment opportunities to all qualified individuals, without regard to unlawful consideration to race, color, sex, sexual orientation, gender identity, age, religion, national origin, disability, veteran status, or any other status protected by applicable law. In addition, as a federal contractor, AUMOVIO complies with government regulations, where they apply, including affirmative action responsibilities for qualified individuals with a disability and protected veterans. To be considered, you must apply for a specific position for which AUMOVIO has a current posted job opening. Qualifying applications will be considered only for the specific opening(s) to which you apply. If you would like to be considered for additional or future job openings, we encourage you to reapply for other opportunities as they become available. Further, AUMOVIO provides reasonable accommodations to qualified individuals with a disability.

Über uns

Since its spin-off in September 2025 AUMOVIO continues the business of the former Continental group sector Automotive as an independent company. The technology and electronics company offers a wide-ranging portfolio that makes mobility safe, exciting, connected, and autonomous. This includes sensor solutions, displays, braking and comfort systems as well as comprehensive expertise in software, architecture platforms, and assistance systems for software-defined vehicles. In the fiscal year 2024 the business areas, which now belong to AUMOVIO, generated sales of 19.6 billion Euro. The company is headquartered in Frankfurt, Germany and has about 87.000 employees in more than 100 locations worldwide.
